News Letter of

HIGHWORTH CAMERA CLUB

1st MARCH MEETING

We now have the first of our March meetings under our belt and hope that you all have enjoyed the introduction of the AV evening and that you are all looking forward to the second evening. We are aware that this may not be every member's "cup of tea", but as a club with a diverse membership it is important that we cover all aspects of our hobby. We are always looking for new ideas and areas to branch into and welcome members input.

NEXT MARCH MEETING ON TUESDAY 22nd

This will be a follow up session on Photo Story 3 and will look at movements, transitions etc. Please bring your Laptops, images and music. The second part of the evening will be hands on and will give members a chance to try their hand and raise any questions they may have. We will try our best to resolve problems but we are all on the same learning curve.
